

INTERMEDIATE: PRODUCT FORMULATION MODULAR TRAINING

The second level of our training offering has been created for the intermediate student. It would be prudent to do 2 or 3 of the entry level workshops, to familiarise yourself with the base products, how to customise them, as well as our methodology.

The next level of your training would be to attend our 10-module course focussing on Cosmetic raw materials and product formulation.

These modules are presented monthly on a Saturday, and each module will have a theoretical component focussing on relevant raw materials, as well as a practical part showing you to make a product from scratch.

The modules are structured in such a way that they work in combination to give you a bird's eye view of Cosmetic Products. It is therefore of the utmost importance that you commit to attend all 10 modules, to get the complete benefit.

There are only 16 spaces available per year, so book early to avoid disappointment. **Cost per module is R 1250.00**, payable in advance.

Upon completion of the course, and with an attendance of 90 %, you will be issued a certificate of attendance.

The current course layout is as follows:

<u>Date</u>	<u>Subject Covered</u>	<u>Product discussed</u>
9 February	Water, pH & Micro Contamination	
16 March	Preservatives	
13 April	Colourants & Fragrances	
11 May	Natural Oils & Essential Oils	Massage Oil / Bath Oil
8 June	Surfactants	Foam bath/ Liquid Soap
13 July	Hair Conditioning Agents	Shampoo
10 August	Gelling Agents	Body Gel
14 September	Emulsifiers	Body Lotion
12 October	Emollients	Conditioner
9 November	Humectants	Body Butter
